

## **Position Opening: Metallurgist**

3DX Industries is a contract manufacturing company specializing in 3D Metal Printing and Fabrication located in Ferndale, Washington. We are currently searching for an entry level Metallurgist to join our team.

### **Duties:**

- Conduct physical, chemical, and process examinations, using metallurgical equipment and instruments for routine, special, and experimental investigations.
- Test alloys in tension, compression, impact, bending, or fatigue to study physical characteristics for manufacturing purposes or determine compliance with manufacturing specifications and standards.
- Write reports indicating deviations from specifications and recommends corrective measures for approval.
- Investigate and develop methods of improving metallurgical processes.

### **Requirements:**

- Bachelor of Science Degree in Metallurgical Engineering or Materials Science
- Some work experience in a manufacturing environment
- Familiarity with quality and cost control, inspection and analysis of incoming materials, and sampling processes
- Must be authorized to work in the US without sponsorship

To apply to this position please submit a resume and cover letter by email to: [info@3dxindustries.com](mailto:info@3dxindustries.com)

*We would like to thank all applicants in advance for submitting their resumes. Please note, only those candidates chosen to continue on through the selection process will be contacted.*
